The diagram illustrates a multi-ported bus system. On the left, two masters are shown: Master 1 (top) and Master 2 (bottom). Each master has a 'BYE' label and a data bus labeled 'K1' and 'K2' respectively. These masters are connected to a central vertical bus. On the right, a single slave is shown with a 'BYE' label and a data bus labeled 'K3'. The slave is connected to the central vertical bus. A horizontal line extends from the slave's bus to the right, representing the system output.
