The diagram illustrates the timing of three signals: G1, G2, and G3. G1 and G2 are active-low signals, indicated by a '0' in a circle next to their labels. G3 is an active-high signal, indicated by a '1' in a circle next to its label. The signals are shown as horizontal bars with vertical edges. A common output line is shown on the right, which is active when both G1 and G2 are active (low) and G3 is inactive (high).
